BERNABE BERTIZ MABOLOC JR.

IT INTERN | ASPIRING IT PROFESSIONAL

bernabemaboloc3@gmail.com | +63 991 825 0647 | Caloocan City, Metro Manila | Salesforce Trailhead: https://www.salesforce.com/trailblazer/maboloc

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Bachelor of Science in Information Technology student with hands-on experience in web development, software development, database management, networking, cybersecurity, artificial intelligence, and IoT through academic and project-based work. Proven ability to develop database-driven applications, implement CRUD operations and system authentication, configure and troubleshoot networks, and integrate IoT technologies using ESP32 and UHF RFID. Skilled in Python, Java, C#, JavaScript, PHP, HTML/CSS, SQL, Firebase/Firestore, MySQL, REST APIs, Git/GitHub, and Android Studio, with knowledge of endpoint security, network defense, threat analysis, computer vision, machine learning fundamentals, and AI-assisted development. Experienced in developing practical systems such as web-based applications and IoT-enabled management solutions, with strong analytical, problem-solving, technical, and collaborative skills.

PROFESSIONAL EXPERIENCE & PROJECTS

Smart Gate: IoT-Enabled Resident Management System with UHF RFID Access Control and Real-Time Financial Monitoring **2026**

- Developed a web-based resident management application for resident records, UHF RFID registration, user management, and administrative monitoring using Firebase/Firestore.
- Implemented role-based authentication and access management for administrators and guards, including resident and RFID record management.
- Developed automated monthly dues and fee generation, including billing schedules, payment status tracking, penalties, and Statements of Account (SOA).
- Implemented GCash payment workflows for payment-proof submission, approval/rejection, receipt generation, and financial monitoring.
- Integrated the application with the UHF RFID and ESP32 components to support RFID-based resident and visitor access within the Smart Gate system.
- Designed administrative and gate-management dashboards for monitoring residents, payments, RFID records, and system operations.

MRT Bigasan — E-Commerce Web System **2025**

- Developed a database-driven e-commerce system using HTML, CSS, JavaScript, Firebase/Firestore, and Firebase Hosting
- Implemented customer and administrative functions using CRUD operations and role-based system workflows
- Integrated GCash and Cash-on-Delivery payment workflows and configured web deployment with Firebase Hosting and Cloudflare

EDUCATION

National University Fairview - Quezon City, Metro Manila

Bachelor of Science in Information Technology with Specialization in Mobile and Internet Technology
“Expected Graduation 2027”

CERTIFICATIONS, SKILLS & AWARDS

- Skills: Python, Java, C#, JavaScript, PHP, HTML/CSS, SQL; Firebase/Firestore, MySQL, REST APIs, CRUD Operations, Database Management, Git/GitHub, Firebase Hosting, Cloudflare, Android Studio, VS Code; n8n AI Automation, Generative AI, Prompt Engineering, AI-Assisted Development, YOLO Object Detection, Computer Vision, Machine Learning Fundamentals, Data Analytics, Power BI, Microsoft Excel, Google Colab; ESP32, Arduino, UHF RFID, Sensor Integration, Microcontrollers; Networking, Cisco Packet Tracer, Network Configuration, Cybersecurity, Endpoint Security, Network Defense, Threat Analysis; Microsoft Office, Google Workspace.
- Certifications: Cisco Networking Academy — Junior Cybersecurity Analyst Career Path; Cyber Threat Management; Endpoint Security; Network Defense; Networking Devices and Initial Configuration; Introduction to Cybersecurity; Networking Basics.
- Awards: Academic Recognition. Consistent Dean’s Lister | NU Fairvew
