BERNABE BERTIZ MABOLOC JR.

IT INTERN CANDIDATE | BS INFORMATION TECHNOLOGY

bernabemaboloc3@gmail.com | +63 991 825 0647 | Caloocan City, Metro Manila | Salesforce Trailhead: https://www.salesforce.com/trailblazer/maboloc

PROFESSIONAL PROFILE

Bachelor of Science in Information Technology student at National University–Fairview, expected to graduate in 2027, with hands-on project experience in full-stack web development, database management, role-based access control, and IoT integration. Developed database-driven applications using Firebase/Firestore and integrated ESP32 and UHF RFID technologies for access control. Familiar with networking, cybersecurity, AI-assisted development, and data analytics. Seeking an onsite IT internship to apply technical skills and complete the required 800-hour OJT.

EDUCATION

National University–Fairview — Quezon City, Metro Manila
Bachelor of Science in Information Technology, Specialization in Mobile and Internet Technology
Expected graduation: 2027

PROJECT EXPERIENCE

Smart Gate: IoT-Enabled Resident Management System with UHF RFID Access Control and Real-Time Financial Monitoring | Project Lead & Full-Stack Developer | 2026

- Developed a Firebase/Firestore-based web application for resident management, user administration, and UHF RFID registration.
- Implemented role-based authentication and access control for administrators and guards, with resident and RFID record management.
- Automated monthly dues, billing schedules, payment tracking, penalties, and Statements of Account (SOA).
- Integrated GCash payment-proof submission, approval/rejection, receipt generation, and financial monitoring workflows.
- Integrated ESP32 and UHF RFID components for resident and visitor access control, with administrative and gate-management dashboards.

MRT Bigasan — E-Commerce Web System | Project Creator & Full-Stack Developer | 2025

- Developed a database-driven e-commerce system using HTML, CSS, JavaScript, Firebase/Firestore, and Firebase Hosting.
- Implemented customer and administrative functions using CRUD operations and role-based workflows.
- Integrated GCash and Cash-on-Delivery payment workflows and configured deployment using Firebase Hosting and Cloudflare.

TECHNICAL SKILLS

- Programming & Web: Python, Java, C#, C/C++, JavaScript, PHP, HTML, CSS
- Databases & APIs: SQL, MySQL, Firebase/Firestore, REST APIs, CRUD operations
- Development Tools: Git/GitHub, VS Code, Android Studio, Visual Studio
- AI & Data: Generative AI, Prompt Engineering, AI-Assisted Development, n8n, YOLO, Computer Vision, Power BI, Excel, Google Colab
- IoT & Embedded Systems: ESP32, Arduino, UHF RFID, Sensor Integration, Microcontrollers
- Networking & Cybersecurity: Cisco Packet Tracer, Network Configuration and Troubleshooting, Endpoint Security, Network Defense, Threat Analysis
- Productivity: Microsoft Office, Google Workspace

CERTIFICATIONS & TRAINING

- Junior Cybersecurity Analyst Career Path — Cisco Networking Academy
- Cyber Threat Management — Cisco Networking Academy
- Endpoint Security — Cisco Networking Academy
- Network Defense — Cisco Networking Academy
- Networking Devices and Initial Configuration — Cisco Networking Academy
- Networking Basics — Cisco Networking Academy

AWARDS & ACADEMIC RECOGNITION

- **CONSISTENT DEAN'S LISTER / ACADEMIC RECOGNITION — NATIONAL UNIVERSITY–FAIRVIEW**
